PROFESSIONAL SUMMARY

B.Tech Information Technology student (CGPA 8.20) and Google Student Ambassador '26 who builds and deploys AI systems end to end: LSTM forecasting (R^2 0.89–0.93), YOLOv8 object detection (mAP50 88.5%), and multi-agent LLM assistants with RAG. Experienced across machine learning, computer vision, and agentic AI through internships, job simulations (Deloitte, JPMorgan Chase), and open-source projects on GitHub. Open to AI/ML internships.

EDUCATION

B.Tech – Information Technology **2024 – 2028 (Expected)**

R. C. Patel College of Engineering & Polytechnic, Shirpur, Maharashtra (Affiliated to Dr. Babasaheb Ambedkar Technological University)

Academic Performance: **CGPA: 8.20 / 10**

EXPERIENCE

Google Student Ambassador '26 – Google **May 2026 – Aug 2026 | Remote, Shirpur**

- Represented Google and Gemini AI on campus, promoting AI awareness, developer tools, and technology-driven learning among students.
- Organised and promoted technical workshops, webinars, and community events; collaborated with ambassadors and student communities across campuses.
- Built communication, leadership, public speaking, and event-management skills through peer-learning initiatives.

Machine Learning Intern – upSkill Campus & UniConverge Technologies **Mar 2026 – Apr 2026 | Remote**

- Built an LSTM-based Smart City Traffic Forecasting model for 4 city junctions, achieving R^2 of 0.89–0.93.
- Developed a YOLOv8 Crop & Weed Detection model for precision agriculture and a Turbofan Engine Remaining Useful Life (RUL) prediction model on the NASA CMAPSS dataset.
- Designed end-to-end ML pipelines (preprocessing, feature engineering, training, evaluation) using TensorFlow/Keras, OpenCV, and time-series techniques.

Python Full Stack Development Intern – Kiran Academy **Internship & Incubation**

- Selected for the Kiran Academy Internship and Incubation Program (Python Full Stack Development).

PROJECTS

Crop & Weed Detection System – YOLOv8n, OpenCV, Python **Mar 2026**

- Trained a YOLOv8n model on 3,000+ annotated field images, reaching mAP50 of 88.5% for real-time crop vs. weed detection in precision agriculture.
- Cut the false detection rate by 23% with custom augmentation pipelines; deployed the inference pipeline on Google Colab.

AgentX – Multi-Agent AI Assistant – LLAMA 3, LangChain, ChromaDB **Dec 2025**

- Architected a multi-agent system with RAG (ChromaDB), voice output (gTTS), and web search, deployed on Hugging Face Spaces.
- Agents handle task delegation, knowledge retrieval, and response generation autonomously.

AI Image Captioning App – Salesforce BLIP, Hugging Face **Nov 2025**

- Deployed a BLIP image-captioning model to Hugging Face Spaces; resolved library conflicts and cut inference latency by 30%.

TECHNICAL & PROFESSIONAL SKILLS

AI / ML:	Python, Machine Learning, LSTM, YOLOv8, Time-Series Forecasting, LLMs, RAG, Agentic AI, Prompt Engineering
Frameworks & Libs:	TensorFlow/Keras, LangChain, Hugging Face, OpenCV, dlib, Scikit-learn, Streamlit, React
Data & Analytics:	Pandas, NumPy, Matplotlib, Tableau, SQL/MySQL, Data Visualisation, Jupyter / Colab
Cloud, Dev & Tools:	IBM watsonx.ai, Google Cloud, Git & GitHub, REST APIs, Java (OOP)
Soft Skills:	Business Problem-Solving, Stakeholder Communication, Public Speaking, Community Leadership

CERTIFICATIONS

Certification	Issuer	Date
AI Skills Passport (Certificate of Completion)	EY and Microsoft	**Oct 2026**
AI/ML for Geodata Analytics	IIRS, Indian Space Research Organisation (ISRO)	**Sep 2026**
Data Science Essentials with Python	Cisco Networking Academy	**Aug 2026**
Google AI Essentials	Google	**Jul 2026**
Data Visualisation: Empowering Business	Tata Group (Forage)	**Apr 2026**
Software Engineering Job Simulation	JPMorgan Chase (Forage)	**Apr 2026**
Intelligent by Design: Build an AI Agent	IBM	**Apr 2026**
AI Fluency: Framework & Foundations	Anthropic	**Mar 2026**
Entrepreneurship Foundations for Deep Tech Startups (score: 100%)	Turnip Innovations	**Mar 2026**
OOPs using Java	CodeChef	**Dec 2025**
Introduction to Generative AI Studio	Google Cloud Skills Boost	**Oct 2025**

ACHIEVEMENTS & HONORS

- **Google Student Ambassador '26:** Selected to represent Google and Gemini AI across campus and regional student communities.
- **Top 250 Winner:** Nano Banana Challenge.
- **Incubation Program Selection:** Selected for the competitive Kiran Academy Internship and Incubation Program (Python Full Stack Development).
